

# City of Defiance, Ohio

## PLANNING AND ZONING CODE UPDATE

### ADOPTED | 2014

Defiance is a city of approximately 16,800 residents in northwest Ohio, about 55 miles southwest of Toledo. This project included updates to the zoning and subdivision regulations, and integrated municipal separate storm sewer system (MS4) standards required by Ohio EPA. MDC worked with a technical advisory committee comprised of appointed planning officials, elected city council members, and city staff.

The updated code provides significantly modernized development standards, such as new landscape regulations and moving sign regulations from the building code to the Planning and Zoning Code.
