

Town of Mount Pleasant, South Carolina

L RTP AND COMPREHENSIVE PLAN UPDATE ASSISTANCE

ADOPTED | 2019

The Town of Mount Pleasant, SC is a rapidly growing Lowcountry suburban community adjacent to Charleston. The town has grown from a small riverfront town to nearly 90,000 people in just two decades. Today the community is a mix of traditional smalltown charm, historic Lowcountry Settlement Communities, and high-end suburban neighborhoods. The community boasts excellent schools and high-quality of life. However, the growth in the region and town has created heavy commuter traffic, and a loss of the sense of place. In

2017, the Town contracted with CDMSmith and McBride Dale Clarion to prepare a consolidated Long-Range Transportation Plan and Comprehensive Plan Update. This is a first for the Town, and this plan departs from previous planning efforts by switching from a growth management approach to a managed change and redevelopment approach to planning. The process included close coordination with Charleston County and recommendations additional plans for joint area plans.
